Allowable Subject Matter

2. Claims 1-49 are allowed.
3. The following is an examiner's statement of reasons for allowance: Although the prior art of record teaches methods of authenticating, which include markings wherein the markings are analyzed to be referenced with reference data, the prior art of record fails to disclose or fairly suggests ascertaining properties of the marking to provide a measured profiled wherein the profiled is compared to members of a closed set of unique reference profiles, at least one profile being characteristic of an indicator in a nanocrystalline morphology and non-characteristic in a bulk morphology. These limitations in conjunction with other limitations in the claims were not shown by, would not have been obvious over, nor would fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
